Achieve success through wingwave-coaching

Obtain peak performance through:

- Concise success coaching
- Creative dynamics
- Inner balance

To reach your personal and professional goals, use wingwave coaching, an approved short-term-coaching-concept, which combines established and well researched psychologic coaching elements. wingwave is not a form of psychotherapy and is no substitute thereof. It is not meant to cure mental illnesses that should be handled by a medical professional. A client's normal ability to handle psychological and physical stress is a precondition for this type of coaching.

Benefit

wingwave coaching is perfect for all areas in life that are connected with stressful memories of past experiences or negative emotions regarding future events. Limiting thinking and behavioral patterns can easily be transformed and mental blocks resolved. You will learn how to effectively access your capabilities and resources whenever you need them.

We combine:

- Bilateral hemisphere stimulation, through "awake" REM phases (Rapid Eye Movement), auditory or tactile left-right input
- Neuro-Linguistic Programming
- Myostatic Test (muscle response test to evaluate the effectiveness of the process)

Objective of the training

Participants can confidently use the wingwave method. Upon completion, you can use wingwave as an efficient and effective adjunct to your existing methods. You gain security in the methodology through extensive exercises and personal experiences. wingwave is not a form of psychotherapy and is no substitute thereof. It is not meant to cure mental illnesses that should be handled by a medical professional. A client's normal ability to handle psychological and physical stress is a precondition for this type of coaching.
